## **New Jersey Producers Trim Expected Soybean Yields**

**TRENTON, NJ** –New Jersey producers expect on average a yield of 39 bushels an acre, down 2 bushels from their earlier expectations in August. However, both expected yield and production, at 3.8 million bushels, is still up significantly from 2015.

U.S. soybean production is forecast at a record 4.20 billion bushels, up 3 percent from August and up 7 percent from last year. Area for harvest in the United States is forecast at a record 83.0 million acres, up 1 percent from 2015.

The complete June Acreage Report and all other NASS reports are available at [www.nass.usda.gov](http://www.nass.usda.gov).
